**10 New Church Plants Launched**

In January, Impact Ethiopia Ministries sent our ten new national church planters to unreached areas of Ethiopia. Already, we are getting reports of amazing things God is doing. In a matter of months, we see people being healed, people accepting Jesus Christ as their Lord and Savior, and discipleship starting. This was all a part of a vision we had about a year ago. In the summer of 2023, one of our supporting churches said they would cover the first year of support for these new church planters. We have stepped out in faith, knowing that God will provide financially to get each of these church plants fully self-supported. Impact Ethiopia Ministries now has 22 active church plants in different parts of Ethiopia, working towards becoming financially independent. This process usually takes approximately 3-4 years.

You can be a part of empowering these new church planters over the next several years! You can commit to becoming a monthly/yearly partner of any amount, give a one-time donation of any amount, and commit to praying for these ten church planters as well as all that God is doing in Ethiopia. We need your partnership to continue transforming lives and communities in Ethiopia.

## We Need Your Partnership

Join us in making an impact. We need \$2,000 a month to cover the new church planters. Can you do a monthly or yearly commitment?

## Yatoo

God has already brought the fruit of 18 people to come to believe in Jesus. It all started when a prominent lady in the community became demon-possessed. Endale met her, prayed over her, and cast out the demon. Her life changed immediately, and she decided to follow Jesus.

When the others in the community heard her story and saw the change in her life, many people followed. However, this lady is now experiencing persecution from the orthodox priest in the area who does not like the presence of Christ believers in the area. Please pray for her and the continued work in Yatoo.

## Waliso Church Plant Grows Up

One of our older church plants has continued to grow. Now, it is running 230 people on a given Sunday! Impact Ethiopia Ministries has been helping support the rental of a property with a small building on it, which they have long outgrown. So, they have been searching for land nearby to make a permanent home for this church plant. They have raised part of the funds to make the purchase, and Impact Ethiopia Ministries is helping fund the remaining amount, partially as a donation and a loan. The church will continue to make payments for this loan so that other churches can purchase land in the future as well.

## Women's Conference

In March, Krista led a successful women's conference for over 80 women from around Addis Ababa. There was food, fun, fellowship, and digging into the Word of God to encourage women that regardless of current life circumstances, God sees them, loves them, and has a plan for their lives. The women told of how they were walking away, empowered to make an impact in their communities.

## Prayer Points

1. Peace in the country so that we can travel safely.
2. Healing for Krista's left foot pain. (She will see a specialist in June)
3. Upcoming training in Fitch. (May 27-28)
4. God to continue to provide financial partners.
5. New church plants and church planters.
6. Guidance on future ministry plans.
